

## Nicholas Zachopoulos

Nicholas Zachopoulos is a Building Services Engineer and owner of the consultancy firm Zachopoulos L.L.C. in Cyprus.

Nicholas grew up in Greece and moved to England to study an MEng (Hons) degree in Aerospace Engineering at the University of Manchester. Following his graduation, he returned to Greece to conduct his National Service, where he served as a Reserve Officer in the Technical Corps.

He then worked in a Mechanical Design/Installation company in Volos, Greece, before returning to the UK to work as a building services engineer for Pick Everard in Leicester, a multidisciplinary consultancy firm. During his time with Pick Everard, he also attended a part time MSc in Building Services Engineering at the University of Loughborough, where he graduated from in 2008 with distinction.

He moved to Cyprus from the UK in 2009 and began work with MELTEC, one of the largest consultancy firms on the island, where he gained a vast experience with projects in various sectors from residential to hospitality and from commercial to industrial.

In 2021 he started his own consultancy firm operating in the Mechanical Building Services and Energy sectors.

Nicholas is a registered Mechanical Engineer with the Scientific Technical Chamber of Cyprus (ETEK) and the Technical Chamber of Greece (TEE). He is also affiliate member of the Chartered Institute of Building Services Engineers (CIBSE).

He is an Energy Performance Certificate Assessor, an Energy Auditor and an Air Conditioning System Inspector.

He is a full member of ASHRAE and served as the ASHRAE Cyprus Chapter president in 2020 – 2022. In September 2022 he represented ASHRAE Cyprus in the Region XIV CRC held in Madrid, Spain.
